Sutton Shortage Still Grows

The shortage in the county treasury continues to mount regardless of the fact that the former County Treasurer was given a whitewash by a grand jury. Sutton faced a shortage of more than \$2,500 in county funds as found by State Examiner Clifton. He was given the opportunity of resigning his office and paying back the money which he did. He has since moved to Dayton.

The examiner only covered a period back as far as 1917. When the 1917 delinquent tax book was wanted it could not be found. The responsibility of the care of that book was in the hands of J. E. Sutton and J. H. McVey, both of whom served over the period covered by this book and the Sutton term until his resignation was demanded following the shortage.

The books of both Sutton and McVey showed that a great amount of delinquent personal tax had not been collected.

When Mrs. Carrie R. Faulkner was appointed one of her first instructions from the examiner was to send out notices demanding payment of the delinquent tax. This amounted to about \$38,000. Until this time, Mrs. Faulkner has succeeded in collecting about \$17,000 of that amount. By sending out these notices Mrs. Faulkner has made many important discoveries. It has been found that a large number of these supposed delinquent tax payers were not delinquent but had paid their taxes and were never given credit for it on the treasurer's books.

These receipts accompanied in many instances by canceled checks have been in the hands of Mr. Clifton. The property holders have paid the tax but the county has never received the money.

One of the most flagrant violations of honesty in the conduct of the treasurer's office was found just a few days ago by Mrs. Faulkner when E. H. Fleming of near Jamestown, a farmer known to many here having once resided in this section, had been over charged \$90.81 by Mr. Sutton. Mr. Fleming was summoned to the treasurer's office and with his tax receipts and checks his payments were investigated. The auditor found that

Mr. Sutton, who will make a finding against Mr. Sutton. On the repayment of the \$90.81 by Mr. Sutton, Mr. Fleming will be reimbursed for his over charge. Unless Mr. Sutton makes repayment a criminal action will no doubt follow. In a way such exposures as this should arouse the public to demand some action against Mr. Sutton and not let such hold violations of the law go unheeded as was done by the grand jury that refused to find an indictment on a world of evidence that the examiner had turned up.

Mr. Fleming naturally feels very kindly towards Mrs. Faulkner for her interest in this matter and he sends us a copy of a letter that he has sent Mrs. Faulkner. It is as follows:

Mrs. C. R. Faulkner, treasurer of Greene County, Ohio.

Dear Madam—

I feel as though a word of thanks should be due you from me for your special interest manifested in helping me on the tax duplicate. The \$90.81 over charged me means a good deal to a young man like myself.

I am satisfied after going through the books with you that you thoroughly understand your work and Greene Co. should consider itself fortunate in having a person of your type in an office of responsibility such as the Co. Treasury. Again thanking you for the splendid services rendered me and with every best wish for your success, I am

Yours Truly,

B. H. Fleming.

O. S. U. PROVED EASY MARK FOR THE MICHIGAN TEAM

Those from here that witnessed the O. S. U. and Michigan football game at Columbus last Saturday are not much enthused over the prospects for a strong team on the part of the O. S. U. team. The game was disappointing yet the big crowd was well pleased with the new stadium. The big oval of concrete and steel will seat 68,000. It is one of the greatest structures for out of door sports in America.

A Columbus report is that four miles of winners—that is the amount of "hot dogs" that were sold to the fans on the grounds. It took 50,000 winners and 30,000 cups of coffee to satisfy the great crowd. The management would not allow the sale of any peanuts with the hulls on. It has been estimated that it will require eight men working steadily for one week to clean the aisles in the structure.

NEIGHBORS ARE SLOW.

Springfield, Dayton, Yellow Springs and Urbana and several other places in this section of the state, are making a campaign to shut out slot machines. It has been a long time since Cedarville officials have permitted such gambling devices.

COLLEGE NOTES

Miss Ruth McPherson spent the week end at her home in Dayton.

Miss Bee Walton spent the week end with her parents at Spring Valley.

Miss Dorothy Oglesbee, Miss Ellen Tarbox, Mr. LeClair Markle, and Mr. Arthur Findley motored to Columbus Saturday where they witnessed the Ohio State-Michigan game.

Cedarville College plays Defiance College football at the college campus Saturday afternoon and the entire student body should turn out to help their team along.

Mr. Harry Wright and Miss Louise Williams were married in Covington, Ky., last week and were given a real wedding by the student body Monday night.

Miss Betty Gifford spent the week end with her parents at her home in New Lexington, O.

The Cedarville eleven defeated the "University of Mars" in a one-sided game at the college campus Thursday afternoon. Paul Edwards was the outstanding star for the University team.

Mr. Gould Peters spent an enjoyable week with friends at Columbus where he attended the Ohio State-Michigan game, Saturday.

Fred Deant says he is now feeling fit and will probably be back in the game against Defiance, Saturday.

REPORT OF THE OHIO FARM BUREAU ON SHIPMENTS

Cooperative livestock marketing companies in Ohio sent more than a million dollars worth of stock to market during the month of Sept., according to figures just tabulated by the Ohio Farm Bureau Federation. The total weight of stock marketed in this fashion was over eleven million pounds and more than 6,000 shippers used the cooperatives.

Of the totals Greene county shippers, 73 in number, sent stock totaling \$36,544.18 in value at market. A total of 28 floors of stock were shipped out of this county.

Of the 44 county livestock companies and local cooperatives included in the totals Fayette county led in value marketed. The cooperative in Wyandot county, however, received patronage from a larger number of shippers than in any other county.

"NOMADS OF THE NORTH" COMING TO MURDOCK THEATRE

James Oliver Curwood, whose latest photo play of the far north, "Nomads of the North" is booked to appear at the Murdock theatre, Thursday, Nov. 2. This writer is also the author of "Back to God's Country" and "The River's End". It is said he has more than sustained the reputation he achieved for himself in these two latter photo plays in his most recent effort, which is described as an unusual spectacle of human love and villainy contrasted with animal fidelity and justified ferocity.

FARMERS MAKE ASSIGNMENT

Cyrus West, Washington C. H. last week made an assignment to M. S. Daugherty with obligations amounting to \$100,000. West owned 750 acres of land besides much city property. The same day his son, Allen West, who owned 640 acres, made an assignment to Daugherty placing his obligations near \$100,000.

Farm Raided But No Still

Last Friday night Constable Turner, Deputy Marshal Fred Dean, Sheriff Funderburg and Deputy Joe Day, conducted a raid on the farm belonging to Clarence McMillan north of town. George Davis has the farm rented and is said to have charge of the place.

It has been intimated that a still has been under operation there for some time but when the officers arrived they found a quantity of mash and a small amount of corn liquor but no still was to be found.

In Squire Jones' Court in Xenia and the hearing was to come up Thursday but we understand was continued until next Thursday owing to sickness of Mrs. McMillan, who is said to be a witness for Davis.

It is reported that a long list of names of people in this section has been turned over to the officers as persons who have been taking the product from the still that was supposed to be operated.

McMillan has been away for several weeks and is said to have developed the situation to the officers. One report is that domestic troubles enter into the affair between McMillan, his wife and Davis.

REPORT THAT STATE MAY REFUSE TO TAKE OVER ROAD

Various reports are in circulation relative to what the state will do in reference to taking over the James town and Cedarville pike off the hands of the contractors. It is known that the company is having trouble getting dirt to complete the turn to the required width. The question of the state cutting down the width of the road from 60 to 50 feet is also up.

A report this week is that the state will not accept the road with the turn as it is, however are not able to have this report confirmed. The contractors have moved all the road equipment to Lima where a four mile road is being built.

UNDERGOES OPERATION.

Mrs. Simpson Stowe of near this place underwent a serious operation in the office of Dr. R. H. Dines, Monday. The operation involved the removal of a section of bone and the muscle in order to remove the tooth which had become locked in a most peculiar position. Dr. Dines has had extensive work in such operations, having been located for a while before coming to Cedarville with Dr. G. M. Monks, a specialist in Oral surgery and Exodontia.

Dr. Dines was assisted by Dr. E. H. Hubner, formerly of New York, who has had quite an extensive experience in anesthesiologic work in a New York City hospital.

Mrs. Stowe is getting along as well as could be expected after her serious ordeal. One hour and ten minutes being required for the operation, which was done under ether. Mrs. Stowe will be out again with her friends in a few days.

BILLY SUNDAY COMING TO DAYTON SUNDAY FOR MEETING

Billy Sunday opens his campaign in Dayton Sunday when he will make Dayton sinners sit up and take notice. He has just completed a revival in Lynchburg, Va., where 5,847 persons hit the trail. His contribution was \$30,678.80 at the final meeting.

HERE IS A STRAW VOTE THAT PROVES SOMETHING

Some of the city papers are taking straw votes over the state. This vote is largely in cities where the factory and liberal vote predominates. If you find a vote from a rural county it may not exceed fifteen or twenty all told from that county. One of the recent straw votes taken was in Washington C. H. The vote gave the Democrats the best of it—in a strongly Republican county.

At the big gathering of farmers last week during the celebration at the Fayette County fair grounds a straw vote was taken in the usual secret manner. The result was that the Democrats had been hit and had suffered a severe blow.

Gov. Thompson, 534, Donahay, 236. For Senator—Farr, 649, Pomeroy, 325. On split ballots there was 33 for Thompson-Pomeroy and 40 for Donahay and Farr, 15 persons voted for Thompson only and 25 for Donahay, 25 only for Farr and one for Pomeroy.

The straw vote of the city papers has largely been taken in Democrat counties. No need to fear the straw vote result this year—at this time anyhow.

A STATEMENT.

In explanation of the additional levy asked for by the Board of Education will say, in former years we could make a levy of 5 mills for tuition and 3 mills for contingent fund. Now we can only make a levy of 3 mills for both tuition and contingent funds combined which is not sufficient to operate our schools. If we could make a levy like we formerly did it would be sufficient. It is important that this vote should carry. We hope the patrons of our schools will be enough interested in this matter to exert themselves in this matter and see that this question carries by a good majority on November 7th.

Board of Education.

(Editor's Note) The Board of Education is not responsible for the situation it finds itself on the matter of sufficient funds to operate the schools. The legislature has set a fixed minimum salary for teachers. It has required boards to transport pupils to and from school. It has fixed certain requirements in the way of building and apparatus. All these the board is required to meet. We all know that our public schools could not be operated on the same money required ten years ago. It should be plain to the taxpayer and elector that all of these extra requirements cannot be met without the money to pay for them. There are many other items of additional cost the board has no control over. The most important is the cost of fuel over what it was a few years ago. The children must be kept in school and they must be kept comfortable. The board cannot do these things with out funds to meet the cost. We have a school of high standing. Let us keep it so and provide the necessary funds by voting for this small levy on election day.

Judge Withholds His Decision

The hearing for the quashing of the indictments against Sheriff Funderburg, and three deputies, as the result of the shooting scrap some weeks ago, were heard in Common Pleas Court Monday morning. The charge is the result of the death of Volney Nichols, 18 of the Wilmington pike south of Xenia.

Twelve motions to quash the indictments were filed on the ground that Attorney Charles Darlington, appointed by the court as assistant to the prosecutor, appeared in the grand jury room during the hearing, being held to be unlawful.

A large number of witnesses were examined as well as members of the grand jury.

The attorneys sought to prove that Darlington, representing Con Mattern of Dayton, attorney, who could not have a part in the investigation as he was a non-resident. It was also alleged that Darlington "was to receive \$250 for his services from money raised by public subscription to employ Mattern to bring civil action. It seems that detective was employed to get inside information from those on the inside. The detective posed as a salesman.

Witnesses stated that they hired Mattern for \$2,500 and that they have already paid him \$1,000 covering the coroner's inquest and the grand jury investigation. Darlington, whose appointment was confirmed by Judge Gowdy, and who was on the record as serving without compensation, admitted on the witness stand that he has received \$250 from the firm of Mattern, Brumbaugh and Mattern to assist in the prosecution.

Members of the committee who raised the money are: Alva Ketter, Oscar Fawcett, Frank Weaver, John Middleton, Elwood Strong and Harry Seifert.

Judge Hornbeck of London who will pass on the motions, reserved his decision. It is very probable that the case will go to the Court of Appeals, regardless of how Judge Hornbeck decides.

The State is represented by Prosecutor Williamson, Con Mattern and Charles Darlington. The defense is Frank L. Johnson, Marcus Shoup, Harry Smith and C. H. Kyle.

HALLOWEEN

Hist! be still 'tis Hallowe'en! That night of nights when elves and witches are abroad, when the tiny tots hold tight to daddy's hand and gaze with fear and wonder at the masqueraders on the village streets.

Not so long ago Hallowe'en was the night when boys played mischievous pranks, carrying away gates and everything else that could be pried loose. But, in keeping with the ever-changing customs in this land of ours we now give the evening to masquerade parties and along with the safe and sane Fourth of July, we have toned down our Hallowe'en pranks to a considerable degree.

For many, many years it has been the custom over the world to build bonfires, to keep off evil spirits on Hallowe'en, and this is the night of all nights to entertain friends with stunts similar to those performed two hundred years ago. On this night, fortunes are told, games are played, and if it so happens that your birthday falls on Hallowe'en, then you may even be able to hold converse with fairies—so goes the ancient superstition.

But what was once a ceremony of belief, has now become a thing of sport, of welcome sport in a day of such serious thought, and work, and sense of responsibility, that any excuse for sport should be laid hold of; so that now its observances are all a jest which the young people lay upon themselves, not in the least believing in the consequences, only half hoping there may be something in it, and saying to themselves that stranger things have happened.

So get out the old false faces, the noise-makers and join the merry throng. Mingle with the goblins and dance with the dunces. Put aside your dignity and your responsibilities for a single night. Sing the old song, "Backward, turn backward, oh, Time in your flight; make me a child again just for tonight." Don't show a gleam of some happy little lad pulls at your deer bell, or showers corn on your window panes. Let youth be unrestrained on Hallowe'en so long as real damage is not done. Get into the spirit of the occasion yourself, and remember that the one unpardonable sin on Hallowe'en is to frighten a little child. The fears of children are very real and a false face to the baby is a terrible thing.

So, have your fun and frolic, but use good judgment.

200 COMING! WHAT FOR?

Press dispatches Wednesday stated that the wets would have 200 speakers in Ohio next week coming from Detroit and Chicago to campaign for the amendment for beer and wine.

It must not be overlooked that the same forces in most counties that are supporting the amendment are also advocating the re-election of Senator Pomeroy for Senator, because he voted against the adoption of the 18th amendment. The same forces are urging the election of Vic Donahay for governor because he stands for a new law that would require a jury trial for liquor violators. This would add greatly to the already heavy cost to prosecute such cases and the tax payer will foot the bill.

COLE COMES TO XENIA; CRABBE AND BRAND HERE

Everyone will be interested in the announcement that Col. Ralph Cole will speak in the Xenia opera house Tuesday evening, October 31 at 8 P. M. in the interests of the Republican campaign.

Col. Cole is one of the greatest orators in the state and he should be greeted by an overflowing audience. Make your arrangements and go hear him on the issue of the campaign.

Thursday, Nov. 2, Hon. C. C. Crabbe candidate for attorney general on the Republican ticket and author of the famous Crabbe prohibition enforcement act with Senator Charles Brand, candidate for Congressman in this district, will speak in the Cedarville opera house at 8 P. M. Both of these men are good speakers and are well posted and will be able to enlighten voters on the dangers that are ahead. Keep this date in mind, Thursday night, Nov. 2 at the opera house.

MAKE IT A STRAIGHT VOTE

There is considerable dust being scattered at this time by Ex-Gov. Cox and Vic Donahay.

Taxation is a popular subject in every campaign. If we remember correctly candidate Donahay wanted a revaluation of land in the state in that it was too low. This was while Donahay was state auditor, a short space of two years ago. Now Vic promises to operate the government by firing everybody and doing everything himself as a matter of economy.

Vic is a great four-flusher. While state auditor one of his state examiners was caught padding his pay roll by County Auditor Amos Faulkner and his deputy, Charles Mower. Vic promised everything to firing his employee but he never was fired. He however was compelled to make his employee return something like \$240 to Greene county.

So far as the Hon. J. M. is concerned he is the gent who gave us the 101 state commissions making it necessary for the state to purchase a ten story building in Columbus to house them. It was the Cox government that took away from all the cities and villages the right to regulate the price of gas, water, telephone and other utility rates. There was a reason. Our Ex-Gov. friend is said to own about \$500,000 worth of stock in the Dayton Gas Company. He also is a heavy holder of stocks in others gas and oil companies in Ohio. There was a reason for the change of government. When he left the governor's office he left a deficit in state funds. His highway department was a public disgrace.

The two Democrats that should have little to say in this campaign are Vic Donahay and J. M. Cox.

Under the reorganization law put through by Gov. Davis, which is a pain to Donahay and Cox, enough money was saved to pay the last two million dollars required to pay off the soldier's bonus authorized by a vote of the people. The reorganization law abolished many places that were created by Cox when governor and which had never existed before in the history of the state.

A straight Republican vote on November 7th will help elect Carmel Thompson for governor, S. D. Fess for Senator and a score or more of other true and tried men to carry out a policy of good government.

Poem by UNCLE JOHN

Accordin' to palaver, which we seldom fail to hear, we're totterin' on the brink of certain doom. . . . We're hoverin' o'er the stage of dissolution, mighty near. . . . We're flounderin' in the shadder of our tomb! We're due to have a panic, an' a POOR OLD universe strike, we'll never see the taxes any lower. . . . The cattle market's bust—O, you U. S. never seen the like—and every bloomin' bank will close its door! There won't be any money, an' there won't be any coal. . . . They tell us in their every-day palaver, we can't escape calamity, to save our little soul, or add another woe to our cadaver. . . .

It's true the crops is splendid, and the medder-grass is tall; the country's full of everything to eat. . . . Old Dobbin seems to 'axen in his sanitary stall—the soup-sixes crowd him off the street! The golf-link an' the movie-show is peopled to their gates. The billion-dollar prize-fight draws the crowd. . . . The biggest diamond market is in these United States, where jewelry, that's phony ain't allowed! But we musn't let delusions shet out the awful truth, that poverty has got us by the pants. . . . The crack of doom pursues us, like a never-failin' sleuth—we haven't even got a fightin' chance!

Useful Sunflower.

It has been found that every part of the sunflower plant may be utilized for some economic purpose. The leaves form a cattle food and the stems contain fiber which may be used successfully in making paper. The pith of the sunflower stalk is the lightest substance known; its specific gravity is 0.028, while that of cork is 0.08, and cork 0.24. The discovery of the extreme lightness of the pith of the stalk has essentially increased the commercial value of the plant. This light cellular substance is now carefully removed from the stalks and applied to many important uses. One of its chief uses is the making of life-saving appliances.

Famous London Bridge.

Blackfriars bridge, a famous structure across the Thames, in London, was built by Robert Myline, in 1769 to 1793. Owing to its piers giving way it was replaced by an iron structure resting on granite piers. It is 1,272 feet long and 80 feet broad. The bridge derives its name from an ancient monastery of the Black Friars, which once stood on the bank of the river close at hand. It dated from 1278 and was the scene of several parliaments. It was there also that Cardinal Wolsey and Campeggio pronounced sentence of divorce against Queen Catherine of Aragon, June 21, 1533. In 1590 Shakespeare acted in a theater that occupied part of the site of the ancient monastery.

Where is the Ocean Deepest?

A most peculiar fact about the oceans of the world is that the largest depressions are to be found near the coast lines. The three largest of these are all in the Pacific, two of them being near island coast lines. The Swire deep, just off the Philippines, measures no less than 35,000 feet from the surface of the ocean to the bottom. This is just 3,000 feet deeper than Mt. Everest, in Asia, is high. The Aldridge deep, in the South Pacific, ranks next to this, being nearly 31,000 feet deep. The third is the Tuscaraora deep, near Japan, which soundings indicate to be 27,600 feet in depth. This would then make the bottom of the Tuscaraora deep more than two and three-eighths miles below the average level of the bottom of the ocean.—Popular Science Monthly.

Once Powerful Empire.

No country, not even Egypt, made a deeper mark in the history of the ancient world than Mesopotamia. For thousands of years it was the seat of the Assyrian and Babylonian empires. To the bountiful resources of nature its peoples added those of art and science, and the country during the centuries waxed not only in material wealth and military power, but also in culture. The ancient glory of Mesopotamia has passed, but the glamour remains.

Sunday School Lesson

LESSON FOR OCTOBER 29

MESSIAH'S MINISTRY (WORLD'S TEMPERANCE SUNDAY)

LESSON TEXT—Isa. 61:1-9.
GOLDEN TEXT—Righteousness exalteth a nation; but sin is a reproach to any people.—Prov. 14:34.
REFERENCE MATERIAL—Matt. 7:18-20; Rom. 14:15.
PRIMARY TOPIC—How Four Boys Became Healthy and Happy.—Dan. 1:3-20.
JUNIOR TOPIC—Destroying the World's Intermediate and Senior Topic—The Next Step in the Prohibition Campaign.
YOUNG PEOPLE AND ADULT TOPIC—Progress of Prohibition Throughout the World.

The lesson committee has gratefully named this lesson "World-wide Prohibition." Neither the text nor the context, directly or indirectly, says anything about prohibition as we understand the use of the word. However, when Messiah shall reign upon the earth the rum traffic with all other iniquitous practices will be abolished.

1. Messiah's Commission (v. 1).
He was appointed by the Lord. God's plan for the world is a time of peace and blessing.

11. Messiah's Program (vv. 1, 2).
Messiah's program is twofold: to "proclaim the acceptable year of the Lord," and the day of vengeance of our God." The careful reading of Luke 4:18-21 will show that Jesus suspended reading of this passage at the comma, in Isaiah 61:2. His first coming opened up the day of "grace and the acceptable year of the Lord," and His second coming will usher in "the day of vengeance of our God." (II Thess. 1:7-10; cf. Mal. 3:1-3).

1. Proclaiming the Acceptable Year of the Lord (vv. 1, 2). In His ministry of grace He preached (1) "good tidings to the meek." "Meek" here means not only a grace, but a condition, that is, those in poverty and affliction. (2) "Bind up the brokenhearted." "Bind up" signifies healing. (3) "Liberty to the captives." The figure of deliverance from the Babylonian captivity is used to describe deliverance from sin and death (Heb. 2:15). (4) "Opening of the prison to them that are bound." Messiah's work was to give deliverance to those who were enslaved by the "consequences of their sins." (5) "The acceptable year of the Lord." This means a space of time in which God would accept all who repent of their sins and come to Him.

2. Proclaiming the day of vengeance of God (v. 2). While the day of mercy is lengthened out, the time of judgment will surely come. The day of vengeance will break upon the world when the Lord shall be revealed from heaven (II Thess. 1:7-10). The period of mercy is called "year," while the period of vengeance is called "day," showing that the period of mercy is much longer than the period of wrath.

111. The Blessings of Messiah's Kingdom (vv. 3-9).

1. "Comfort all that mourn" (v. 2). The day of vengeance will bring sorrow to many, but they shall be comforted when they shall see the King on the throne.

2. "Give unto them beauty for ashes" (v. 3). This peculiarly applies to Israel.

3. "Oil of Joy for Mourning" (v. 3). Israel has been mourning for centuries. When the Messiah shall reign as King they shall be glad.

4. "Garment of Praise for the Spirit of Heaviness" (v. 3). Instead of wearing the symbol of the burden of sin they shall be clothed so as to indicate their joyfulness.

5. "Called Trees of Righteousness" (v. 3). These trees represent Israel as planted by God and bearing fruit, not as reeds bowed down with sorrow.

6. "They Shall Build the Old Wastes" (v. 4). Israel shall return to their own land and shall rebuild the city of Jerusalem and the cities of Judah which lie waste.

7. "Strangers Shall Stand and Feed Your Flocks" (v. 5). In the time of the kingdom the Gentiles shall render voluntary service unto Israel so that Israel may devote her whole time to the service of God.

8. "Ye Shall Be Named the Priests of the Lord" (v. 6). God chose Israel to be the priestly nation to represent Him to the Gentiles.

9. "For Your Shame Ye Shall Have Double" (v. 7). Instead of the shame and confusion which Israel has experienced for centuries she shall have double honor and rejoicing.

10. "I Will Direct Their Work, and Make a Covenant With Them" (vv. 8, 9). God will vindicate His people and cause the Gentiles to see the divine favor upon them.

False Prophets.

Believe not every spirit but try the spirits if they be of God, because many false prophets are gone out into the world.—John 4:1

Unjust Things.

He that speaketh unjust things cannot be hid, neither shall the chastening judgment pass him by.—Book of Wisdom, 1:8.

In the Sight of All Men. Provide things honest in the sight of all men.—Romans 12:17.

Where They Were.

On inquiring why they made so much noise upstairs, the twins told me that they were just playing "war." Pretty soon the noise ceased, all was still; becoming uneasy at the unusual silence, I went upstairs to investigate; they were nowhere to be seen; but after calling several times and asking where they were, a still, small voice from under one of the beds answered: "We didn't tell, but we're someplace upstairs."—Exchange.

JEWEL BOX BURGLAR PROOF

Valuables May Be Accounted Safe When Placed Within This Up-to-Date Receptacle.

Among the newest things that inventors have given us in the last few months is a box that comes as near to being burglar proof as it is possible to imagine. It looks like an ordinary steel box with a keyhole in its side, but just lift it or move it and a loud alarm bell begins to ring inside it. This bell keeps on ringing for five hours and it cannot be stopped without unlocking the box.

A burglar might carry off the box, but its alarm would keep on ringing and would give him away before he could get it to a place of safety. If he touches it, even stumbles against it, the alarm will arouse the household, for the slightest movement suffices to set it ringing. This is also true of the dishonest servant.

The owner calls, however, open and close the box at will, as he has the key. And the only way in which he can be robbed is by some thief stealing the key before tampering with the box.

This safe is arranged inside with trays for small articles, money and jewelry and with space under them for securities, such as bonds and mortgages. The whole is made of seamless steel, nickel-plated, with a piano hinge and strong double lock. There are no duplicate keys, nor is there a master key that will open it.

Shellac.

Shellac is the joint product of insects and plants and comes from India. The lac insects are about 1.25 of an inch long, a bright red in color. They suck the juices of plants, digest them and exude them in the form of resin, which soon encases the whole insect. When the young insects have swarmed out the resin is scraped from the branches, ground, washed, mixed with colophony and orpiment, cooked slowly and drawn out into thin sheets we know as shellac.

**VOTERS FEARING
OHIO DEMOCRATS
PLOTING LEAGUE
ISSUE FOR 1924**

Columbus, O.—(Special.)—Ohio voters are alarmed over instant injection of the League of Nations issue into the campaign this year and are much concerned over impending use of the league issue by the Democrats in 1924, should they succeed in gaining control of Ohio this year and in changing Republican control of Congress. Voters are displaying great interest in the Democratic plot to bury the league issue this year in order to raise its ghost in 1924, so as to force the United States into that "Body of Death," the League of Nations.

Republican candidates returning to state headquarters here after a week of campaigning over the state and direct contact with the public report this condition existing as shown by their observations and in talks with voters during the week ending Saturday, Oct. 14.

Secretary of Labor Davis, who came to Ohio direct from Washington to make three speeches in the state Saturday, was met at the Union Station here Saturday night en route to Chicago from Nelsonville by Republican state campaign headquarters leaders. Davis said:

"I was astounded to find during my brief visit to your state today the voters evincing intense interest in the possible effect the Democratic ruse regarding the League of Nations issue in this campaign would have on the United States situation in 1924 in event of Democratic success in Ohio this year.

"I find voters are fearful of the result should our Democratic friends succeed in putting through their plot this year in endeavor to force United States membership in the league in 1924. It seems almost incredible after the overwhelming repudiation of the league issue in 1920. But as the Democratic party this year is wholly devoid of any real issue, they are plotting with typical guile to befuddle the voters in the hope of gaining control of state governments and Congress this year and the national government in 1924. Then they will attempt to put us into the league.

"As President Harding is absolutely against the United States becoming allied by treaties, pacts or covenants which would plunge America into the boiling pot of Europe's clashing interests, voters realize that to continue the Republican policy of guarding American interests emphatic endorsement of the administration is necessary at this point in Ohio this year.

"Our industrial situation is returning almost to normal, employment is general and the 5,000,000 out of work found by the Republican administration March 4, 1921, are now practically all. The Republican administration has started the greatest era of prosperity in the history of the nation. This is safeguarded by a protective tariff.

"Continuance of normal conditions and development of prosperity is dependent upon voters endorsing the Republican administration this year. I have no doubt the people of Ohio will return the Republican congressional delegation, elect Colonel Thompson governor and Congressman Foss senator in November."

Thompson Outlines Situation. Colonel Thompson, as a result of his observations last week in his campaign for governor, made this statement:

"There can be no question that farming interest of Ohio have a dependable estimate of the splendid program of legislation put through by the administration which has saved American agricultural interests from bankruptcy, after the war. They realize also how their interests are benefited by the protective tariff enacted in the interests of American producers and wage earners. The farmers and voters generally are vitally interested in the success of the Republican ticket in Ohio this year, both for the good of their state and nation.

"The campaign to date has brought home to the voting public the fact that Ohio must endorse the administration of her greatest living son, President Harding, by election of a Republican governor, senator and congressional delegation. My observations of the past week show the public realizes continued prosperity depends upon Republican success in November, insuring continuance of the Republican policy which has put business in government to create more and better business generally."

"Voters For Harding," Says Foss. Congressman Foss in his tour of the state campaigning for election as Republican United States senator from Ohio found general sentiment overwhelming for Republican support this year. He said:

**NOTICE TO THE ELECTORS
OF CEDARVILLE TOWNSHIP
RURAL SCHOOL DISTRICT**

The Board of Education of above named district finds the maximum rate of levy, authorized by the General Code of Ohio, to be insufficient to meet outstanding obligations and properly maintain the Public School of said district. Have under Section 5649-5 of the General Code passed a resolution to submit to the qualified electors of said district, November 7, 1922, the question of an additional levy—as an emergency—of two (2) mills per year for 4 years.

The form of ballot will be:
"For an additional levy of taxes for an emergency, not exceeding 2 mills for not to exceed 4 years, Yes."
"For an additional levy of taxes for an emergency, not exceeding 2 mills, for not to exceed 4 years, No."

Such election will be held November 7, 1922, at the usual voting places of Cedarville Township and Cedarville Village.
By order of The Board of Education, Andrew Jackson, Clerk.

Chili Peppers.
From data gathered from the various consular districts it is revealed that the growing of chili peppers is confined principally to the states of Vera Cruz, Aguascalientes, San Luis Potosi and Lower California, and the district around San Martin, in the state of Puebla. This latter district is found to be in normal times one of the most important for the cultivation of this product for export, the possibility for the crop being very extensive.

ENEMIES OF AMERICA
Success always produces enemies. We are not discussing the external enemies of America, because her danger is not from without; it is from within. Her menace is being generated in her own bosom.
Let us discuss some of them.
FIRST—The bad citizenship of good citizens.
The banker, lawyer, doctor, merchant, minister, teacher, or other professional and business men who spend their entire time looking after their own interests to the neglect of the public's interest, welfare, and success are bad citizens; undesirable citizens.
When men become so selfish, self-centered, and interested in their own affairs that they will not give

Safety For Valuables
---And Convenience

WE don't all have precious heirlooms and costly jewelry and things of great worth.

But most of us have papers like insurance policies, wills and other important documents whose loss would cause distress and annoyance.

The place for them is in a safe deposit box in our vault.

For a few cents a week they will be absolutely protected—safe and yet always available.
